

How to use the Highland Wi-Fi Network...

Make sure your device has its Wi-Fi turned on and search for a wireless network.

When it finds '**Highland Wi-Fi Public Hotspot**', click 'connect'. After a short time, it should show 'connected'. Double click your internet browser - Safari, Chrome, Firefox, internet explorer etc (iPad Apple devices will open the login page automatically). The login page will open.

If you have used Highland Wi-Fi before, click 'RETURNING VISITOR? CLICK HERE'.

Enter your username and password, then click 'GO'

Additional Important Information:

- To avoid having to login every time you wish to use the network, keep your email program or a website that refreshes automatically open. That way you constantly stay logged in.
- If you are unable to connect, check your proxy server settings on your device as any proxy server activated will not work with Highland Wi-Fi.

Apple Devices:

- You may need to empty your history and cookies and data from Safari browser if login page does not open.
- Go into Ipad Settings, on left hand side panel, Click Safari, click Clear History then click Clear.
- Click Clear Cookies and Data, then click Clear.
- Open Safari and Search for anything.
- You will now be redirected the Highland Wi-Fi login page.

- Choose how much time you wish to purchase and click the 'New to Highland WiFi?' button on the top left hand side of the login page.
- If you have not used our service before, click 'NEW TO HIGHLAND WIFI? CLICK HERE'.
- You are now on the registration page. Complete all fields highlighted with Red Asterix.
- Tick 'I agree to the Terms and Conditions'.
- Click Continue.
- Choose how much time you require.
- Choose payment method Credit Card/ Debit Card/PayPal.
- Enter Card/PayPal details.
- You are now online click 'Continue'.
- To end your session click on the logout button.
- If using Apple device, logout by turning off WiFi in WiFi settings. After 5 mins of inactivity you will automatically be logged out.
